# DECK CHECK

Don't leave the dock without our picks for your ship!

**MUST  
HAVE**

[P/N 2980]

Can I use this for my pets?  
Yes, your pooch will thank  
you for it!

[P/N 2982]

Introducing

## LAS TAG & FLOAT-ON

Overboard Location Alert System

A must for the entire family, at a price that won't prevent you bringing them along! A Smartphone connected crew tracker, expandable for various vessel sizes. They both create a 'virtual-tether', notifying you when someone is outside your ship, while the ACR LAS Float-On includes emergency light functionality. A must have this season!

Measuring at 2.2 inches this tiny emergency light adds smart MOB technology that can provide instant notification when someone hits the water.

## ResQLink View

Personal Locator Beacon

Engineered and tested to ensure it can withstand even the harshest elements. This buoyant Personal Locator Beacon requires no subscription for use and includes a digital display providing live status and GPS coordinates. Whether on land, at sea, or in the air, trust that the ResQLink can get you home from disaster. **It's rescue at your fingertips!**

**FOR THE PROs**

## OLAS GUARDIAN

Wireless Engine Kill Switch + Alarm (12-24V)

[P/N 2985]

The ACR OLAS Guardian is a small wireless engine kill switch that acts within two seconds of a person going overboard. It has the dual function of also acting as an instant Man Overboard (MOB) Alarm system.

- OLAS Mobile App Integration
- Connect up to 15 OLAS Transmitters
- Built-in audible & high power red LED visual alarm
- Automatic Engine Restart

### OLAS CORE

Base Station with Alarm (5v USB)

- OLAS Mobile App Integration
- Connect up to 15 OLAS Transmitters
- Built-in 85db audible alarm and high power red LED visual alarm

[P/N 2984]

### OLAS EXTENDER

Expand OLAS Range

- Extend range of the ACR OLAS MOB System up to 80 ft. vessels

[P/N 2986]

## Get an edge on Navigation! AIS Solutions

### AISLINK CB2 - AIS CLASS B+ TRANSCEIVER

[P/N 2676]

The AISLink CB2 AIS Transponder is a fully compliant, waterproof Class B+ transceiver designed to make your chart plotter dynamic with overlaid vessel targets along with their position and navigational data allowing you to navigate safer in high traffic areas.

#### Faster Communication, Longer Range!

- 5 Watts of Power - More than double that of older Class B units (2 Watts)
- Faster Transmissions every 5 seconds - Versus twice Per Minute with older Class B units

Wifi Support

NMEA 0183  
NMEA 2000

Mobile App for Setup & Control

USB Support

Internal 99  
GPS Channel

GPS Antenna  
Included

Pair together with an AISLink MOB or Ocean Signal MOB1 and turn your AIS into a full featured Man Overboard System.

Not only great,  
but a brilliant selection!

# FOR THE PROs

## RCL-95 Searchlight

[P/N 1958, 1959]

Don't fear the night with these new super bright searchlights. With impressive illumination numbers and included wired and wireless remotes these searchlights will give all the competition a cold sweat!

460,000 Peak Candella

Includes Joystick and wireless remote!

360° Continuous Rotation with 135° Degree Tilt

Auto Home

Does it come in black?  
Yes, and it looks amazing!

[P/N 1956, 1957]

## RCL-85 Searchlight

Smaller but extremely powerful. These lights offer more than an affordable price point. With an included wireless remote control, simply mount and connect to boat's power (12-24V) making installation a snap.

240,000 Peak Candella

350° Rotation

Wireless Handheld Remote

# A Must Have for All Boaters!

## GlobalFix V4 EPIRB

Emergency Position-Indicating Radio Beacon or EPIRB provides the protection you can trust in an emergency situation. Should the unexpected happen, this EPIRB will relay your location to a vast network of search and rescue satellites, allowing local first responders to get you home faster.

10 Year User Replaceable Battery!
